the 1990s, the number of people who have been employed in the public sector has increased in all countries. The increase has been particularly large in the United States, where the public sector has grown from 10.5% of the total workforce in 1970 to 17.5% in 1995. In the United Kingdom, the public sector has grown from 12.5% of the total workforce in 1970 to 18.5% in 1995.

The increase in the public sector has been driven by a number of factors. One of the most important is the growth of the welfare state. In many countries, the welfare state has expanded significantly since the 1970s, leading to a large increase in the number of public employees. Another factor is the growth of the public sector in the health care industry. In many countries, the health care industry has become a major employer in the public sector, leading to a large increase in the number of public employees.

The increase in the public sector has also been driven by the growth of the public sector in the education industry. In many countries, the education industry has become a major employer in the public sector, leading to a large increase in the number of public employees. Another factor is the growth of the public sector in the social services industry. In many countries, the social services industry has become a major employer in the public sector, leading to a large increase in the number of public employees.

The increase in the public sector has also been driven by the growth of the public sector in the infrastructure industry. In many countries, the infrastructure industry has become a major employer in the public sector, leading to a large increase in the number of public employees. Another factor is the growth of the public sector in the public utilities industry. In many countries, the public utilities industry has become a major employer in the public sector, leading to a large increase in the number of public employees.

The increase in the public sector has also been driven by the growth of the public sector in the public administration industry. In many countries, the public administration industry has become a major employer in the public sector, leading to a large increase in the number of public employees. Another factor is the growth of the public sector in the public safety industry. In many countries, the public safety industry has become a major employer in the public sector, leading to a large increase in the number of public employees.

The increase in the public sector has also been driven by the growth of the public sector in the public housing industry. In many countries, the public housing industry has become a major employer in the public sector, leading to a large increase in the number of public employees. Another factor is the growth of the public sector in the public transportation industry. In many countries, the public transportation industry has become a major employer in the public sector, leading to a large increase in the number of public employees.

The increase in the public sector has also been driven by the growth of the public sector in the public health industry. In many countries, the public health industry has become a major employer in the public sector, leading to a large increase in the number of public employees. Another factor is the growth of the public sector in the public education industry. In many countries, the public education industry has become a major employer in the public sector, leading to a large increase in the number of public employees.

The increase in the public sector has also been driven by the growth of the public sector in the public social services industry. In many countries, the public social services industry has become a major employer in the public sector, leading to a large increase in the number of public employees. Another factor is the growth of the public sector in the public infrastructure industry. In many countries, the public infrastructure industry has become a major employer in the public sector, leading to a large increase in the number of public employees.

The increase in the public sector has also been driven by the growth of the public sector in the public utilities industry. In many countries, the public utilities industry has become a major employer in the public sector, leading to a large increase in the number of public employees. Another factor is the growth of the public sector in the public safety industry. In many countries, the public safety industry has become a major employer in the public sector, leading to a large increase in the number of public employees.

Minha mãe estava grávida de mim, já com uns seis meses de gestação. Naquele gesto típico de grávida do primeiro filho, pediu para o meu pai:

— Vai, encosta a cabeça aqui na minha barriga pra ouvir o seu filhinho.

Meu pai obedeceu.

— E aí, tá ouvindo alguma coisa?

— Tô, mas é estranho!

— O que foi? — minha mãe apavorou-se.

— Nada de mais, mas é melhor o doutor ouvir isso.

Meu pai chamou o médico e contou o que ouviu. O doutor usou o estetoscópio para auscultar a barriga.

— É isso mesmo! — o doutor confirmou.

— É isso mesmo... o quê? Que mistério é esse? — Minha mãe ficou branca, assustada, sem saber o que estava acontecendo com o seu filhinho.

— Calma, minha senhora, não é nada grave. — O doutor estendeu o aparelho para minha mãe. — Ouve só!

Ela pegou o estetoscópio e o encostou na barriga. E ouviu nitidamente:

- Neennnnseeeeeee! Neeenseeee!
- Que é isso, doutor? Meu filho já fala?
- Claro que não, minha senhora. Nenhuma criança fala dentro da barriga da mãe. Mas ele já está torcendo!
- E isso é perigoso, é alguma doença?

— Bem... seu filho tem uma doença: é tricolor roxo! Mas não tem perigo nenhum...

Foi constatado clinicamente: eu era tricolor doente de nascença. E essa doce moléstia só piorou com o tempo. Não demorou para que as cores verde, branco e grená tomassem conta da minha vida.

Meu pai começou a me levar ao Maracanã quando eu ainda era bem pequeno. É claro que no início a minha maior torcida era para que o cachorro-quente chegasse logo e o mate estivesse geladinho. Olhava mais para os lados do que para o campo, procurando o vendedor de picolé. Mesmo criança, gostava daquilo e já achava a torcida tricolor a melhor. As outras eram preto e branco ou no máximo havia um
